**Earthdeeds.org** is a website that makes it easy--and interesting--to calculate and "onset" your carbon footprint. While carbon offsets disappear into a large anonymous fund, Earthdeeds' "onset" model allows you to fund a wide range of local sustainability projects. The carbon calculator built into the site also provides you with carbon comparisons to other activities. For example, you flew from New York to London this year? You could have stayed home and watched 77,000 hours of TV instead. Or eaten 86,625 bananas. Either way, it's the same as the annual per-person emissions of someone living in Venezuela. *from Mennonite Creation Care Network e-newsletter*

**Grace Hill Mennonite Church, 10218 SE 12th St, Whitewater, invites you to their 4th Annual Hog Roast Sun., Sept. 22.** Food served from 5-7 pm, entertainment until 8 pm. Come for food, yard games, fellowship and music by the Flannel Folks! Freewill donation accepted for area food banks.
